

Science

We will be investigating different materials and describing their properties using science words. We will make a welcome to earth box for aliens and describe the properties of the objects we put in it. We will learn how to make an electrical circuit to send a light into space. We will use different sources to find out about the moon and the planets.

History

We will be finding out about Yuri Gagarin, Neil Armstrong, Helen Sharman and Buzz Aldrin. We will be using a timeline to put space events in order.

RE

We will learn about Shabbat and why it is important to Jewish children.

Geography

We will be getting a NASA eye view of earth by using google maps to name some countries and features of earth.

Moon Zoom Summer Term 1 Year 1

Art

We will be making paper mache planets to show the solar system. We will be working out how to add rings and other details. We will be exploring hot and cold colours and using these to decorate the planets correctly.

Wow Day – Thursday 3rd May

Planetarium experience at Witney Masonic Centre

Computing

We will be using software to draw, save and print alien pictures using paint. We will be programming Beebots to move around a space terrain. We will be learning how to write an email to an alien.

Design and Technology

We will be designing and making space rockets using junk materials. We will be making simple moon buggies using axles and wheels to make them move.

PE

We will be learning traditional May Day dancing in preparation for the May Day celebrations on the Church Green. We will be creating dances using space themed music.
