

John Summers

I have worked in one of the world's deepest gold mines at 3km below the surface, and in the world's largest open pit copper mine that is visible from space!

Appointed as a community governor

Term of office started
1st September 2015

Term of office ends
31st August 2019

Attendance 17/18

FGB: 75% (3 out of 4)

Committee: 100% (2 out of 3)

No declared interests

My favourite food is my wife's steak and kidney pie...

....though not too often!!

I have worked in the mining industry all my life, have travelled extensively in my various roles and lived in Africa for some while.

In 1969, (long before the gap year was invented!), I spent 9 months, prior to going to university, volunteering with the Ethiopian Ministry of Mines.
