

The Super Numbies

Who are the Super Numbies?

- The Super Numbies are super heroes
- Their special powers are that they know all the pairs of numbers that make their number
- This is Fantastic 5 – He knows all the pairs of numbers that make 5

- This is Mr 10 – He knows all the pairs of numbers that make 10

Why do we need the Super Numbies help?

- At St Mary's we want all our children to have the Super Numbies special powers
- The Super Numbies will help each child to build the foundations needed to progress with their mathematical understanding
- Without the Super Numbies help, it would be like trying to run before you can walk.

What happens when your child becomes a Super Numbie?

- They will be able to identify a missing number in a calculation:
- $5 + \square = 8$
- They will be able to solve mathematical problems:
- Jack needs 10 balloons to give to his friends at a party. He has 6 balloons already. How many more does he need?

What happens when your child becomes a Super Numbie?

- They will be able to work out other calculations:

$$13 + 2 =$$

I know $3 + 2 = 5$ so my answer needs to end in a 5

$$45 + 33 =$$

I know 5 and 3 make 8 so my answer needs to end in 8

What happens when your child becomes a Super Numbie?

- They will be able to add multiples of 10:

$$40 + 20 =$$

I know $4+2=6$ so my answer needs a 6 in the tens column

AND

- $400 + 200 =$

I know $4+2=6$ so my answer needs a 6 in the hundreds column

Homework:

Have fun learning number facts to 7!

$$0 + 7 = 7$$

$$1 + 6 = 7$$

$$2 + 5 = 7$$

$$3 + 4 = 7$$

$$4 + 3 = 7$$

$$5 + 2 = 7$$

$$6 + 1 = 7$$

$$7 + 0 = 7$$

Super 7

What can you do to help?

- Practice makes perfect
- Practice each new Super Numbies' facts as often as possible even in the car or on your walk to school.

- Play Ping Pong

- If you are on Super 7, you say 5 and they have to respond with the number that is needed to make 7
- All children love a timed challenge
- Find 7 objects, show 5 objects and get your child to guess how many you are hiding
- DON'T FORGET TO REVERSE THE ROLE

What not to do

- We do not want the children to become speed writers of their number facts so when they are tested on their number facts it will look like

this:

1 a. + 3 = 7

2 a. + 1 = 7

3 a. 5 + = 7

4 a. 6 + = 7

5 a. 4 + = 7

6 a. 0 + = 7

- 100%

Amazing 8

Nimble 9

Super 7

Name:

Addition

This is a sticker chart titled "The Super Numbies" with a central lightning bolt graphic. It features ten superhero-themed icons arranged around the center, each with a name below it: "The Super Trio", "Mr 10", "Fab 4", "Fantastic 5", "Secret 6", "Miss 20", "Amazing 8", "Nimble 9", and "Super 7". At the bottom, there are two white rectangular boxes. The left box is labeled "Name:" and the right box is labeled "Addition".

Date.

Have fun learning number facts to 7!

$$7 - 7 = 0$$

$$7 - 6 = 1$$

$$7 - 5 = 2$$

$$7 - 4 = 3$$

$$7 - 3 = 4$$

$$7 - 2 = 5$$

$$7 - 1 = 6$$

$$7 - 0 = 7$$

|

Super 7

$7 - \square = 3$	$7 - \square = 0$
$7 - \square = 2$	$7 - 0 = \square$
$7 - \square = 4$	$7 - \square = 1$
$7 - 1 = \square$	$7 - \square = 5$

What not to do

We understand that children learn at different rates and that each child is an individual so if your child comes home with the same Super Numbie the following week then DON'T PANIC!

And...when we reach Miss 20 we give the children 2 weeks to achieve this Super Numbie.

Super Numbie Certificate

This certificate is awarded to

for being a Super Numbie Hero and learning all the addition facts to 20

Signature

Date

Next Steps/Year 2:

Wonderful 100 knows number pairs that make 100 (ending in 5 or 0)

Muscly Two can count in twos

Fabulous 5 can count in fives

Mrs 10 can count in tens

Tremendous 10 can count in tens from any number

Terrific 3 can count in 3s
