

Science

We will be naming different types of trees and learning about deciduous and evergreen trees. We will be bird watching in the woods and learning their names. We will be looking at different woodland habitats and plants. We will be sorting objects into the categories; alive, dead and never been alive.

Art

We will be making 'tree boggart' faces with clay. We will be sketching woodland animals using different media and turning these into models. We will be making our own woodland crowns. We will be making sculptures inspired by Andy Goldsworthy.

Geography

We will be making 3D maps of woodland areas then converting them into 2D maps.

The Enchanted Woodland Summer Term Year One

D.T.

We will be building our own dens and nests for woodland creatures. We will then use our skills to make imaginary fairy houses.

WOW Day Trip to Filkins Estate on Tuesday
25th April to take part in forest school
activities.

R.E.

Key question: Do we need shared special places? We will explore the religion of Judaism during this topic.

Computing

We will be using the internet to explore the British Woodland Trust's website. We will be using an email programme to tell them what we have learnt about trees. We will continue to learn about E-safety.

P.E.

We will be working in the hall on our gymnastic skills. We will be practising for the May Day dancing.
